

GRANDE PRAIRIE TRAIL WILL BE COMPLETED WITHIN TWO WEEKS

Government Road Builders Are Cutting New Trail Thirty-Five Miles in Length Which Will Ensure Good Highway to Grande Prairie

According to J. B. Taft, who is operating a stage line on the Edmonton road to Grande Prairie, the trail will be in condition to admit of settlers taking light loads over it in the course of another two weeks. Mr. Taft is now operating a stage line on the northern end of the trail between Sturgeon lake and the Big Smoky river. There is a little of about 25 miles of the trail leading through low country south of Sturgeon lake, on which he is still using pack horses, while on the southern end of the trail between Edson and the Little Smoky the stage is in operation.

GOVERNMENT PURCHASES A HERD OF REINDEER Will be Taken to Fort Smith Where They Will Take Place of Dog Teams—Pass Through City in September

OTTAWA, June 20.—The Government of Canada has made an addition to the transportation facilities of the country by the purchase of reindeer. The purchase was made from Dr. Grenfell of Labrador who is being paid \$1 dollar a piece for the animals. They will be taken from Labrador by boat to Quebec in September and will go by train to Edmonton or to Athabasca Landing if the Canadian Northern has run down to that point early in the autumn. Shows with the built to complete the journey down the Athabasca river to Fort Smith which is the destination of the herd.

The reindeer have proved a great success in Labrador. As the conditions have been found entirely suitable for them and the original herd of three hundred has grown by natural increase to some twelve hundred. They have proved to be good for travel and their flesh and milk has proved a boon on more than one occasion. It is believed that they will prove even more useful in the Canadian north where dog teams are now used for winter travel.

The great problem of finding food for teams which has to be calculated where dogs are used is solved by the reindeer which thrives upon mosses and lichen.

STATE DINNER TO WILL MEET WITH BE GIVEN TODAY ORGANIZED LABOR

KING AND QUEEN KEPT BUSY ENTERTAINING NATION'S REPRESENTATIVES TO CORONATION

London, June 20.—Rain which began to fall early yesterday afternoon has drenched the decorations that have been prepared for the coronation. This morning the flags are hanging limp with their gaudy colors and some of the finest decorations of the triumphal arch along the line of the procession have been destroyed.

The heart of the financial district and the stock exchange were brilliant with the coronation illuminations last night and pedestrians strolled boldly over the muddy streets enjoying the patriotic show. Traffic was congested last night in the vicinity of Buckingham palace, this being the centre of interest. London will have little rest until the crowning is over.

Large numbers of workmen are at work putting the finishing touches on the decorations and they are constantly watched by a crowd of spectators.

The king and queen had a busy day yesterday, receiving a large number of visiting royalty and dining the foreign representatives at the palace. Deputations were received by the queen from various parts of the empire bringing with them gifts and addresses. All the visiting people, princesses and the lesser members of the royal families with the duke and duchess of Cornwall and John Lubbock, the personal representative of President Taft were present. The grand state dinner will be held today, and will be the largest and most pretentious affair ever held in England.

Number 2 fire broke made a run to 250 Eighth street at 1:15 this morning and extinguished a blaze in a pile of rubbish at the rear of the house. No damage was done.

FLAMES THREATEN MARICOPA, CALIF.

FIRE SPREADS FROM BURNING OIL WELL. TELEGRAPH OPERATOR FORCED TO WAVE POST

San Francisco, June 20.—Word has been received in the city that the town of Maricopa, situated in the centre of a vast oil district, is on fire and that there are indications the entire town will be wiped out. So far as can be learned the blaze started from burning oil well. At last reports the operator had been forced to leave his post owing to the proximity of the flames and no detailed report of the forthcoming conflagration will be forthcoming until a messenger from this city can return.

COURTS DEPRIVE MEMBER OF SEAT

JUDGES DECLARE UNDER SECRETARY OF STATE THROUGH CORRUPT PRACTICES

London, June 20.—Chas. F. G. Masterman Under-Secretary of State in the Home Office today was deprived of his seat in the House of Commons for the North division of Westham by the law courts which found that his election was secured by corrupt practices on the part of his agents. The judges said the fault rested upon Masterman personally.

YALE CLASS DAY EXERCISES

New Haven, Conn., June 20.—Class day at Yale University yesterday proved to be one of the most interesting and delightful celebrations seen here in years. Each of the four departments—academic, scientific, law and medicine—conducted services closely following the programme which custom has established as most beneficial for the occasion. At the law school the address to the graduates was delivered by Attorney-General Wickham.

MAYOR SAYS CAPITALISTS DEFEATED POWER BYLAW

DECLARES HYDRO-ELECTRIC FRANCHISE IS WORTH MILLIONS AND PRIVATE INTERESTS ARE READY TO TAKE IT OVER—VOTE STOOD 564-78 AGAINST.

Defeat of the bylaw contemplating development of power from the Athabasca river means that private interests will step in and acquire a franchise worth millions of dollars, according to Mayor Armstrong. "He says that certain munitions stand ready to take over the proposition, finance it, and set it up to its full potentiality within a reasonable length of time. In fact the mayor asserts, these same capitalists made overtures to the city commissioners and himself several months looking to that end, and now he adds, they have the opportunity they sought. He believes that these capitalists contributed largely to the defeat of the bylaw."

"While I regret the outcome of the election yesterday," said Mayor Armstrong this morning, "there is no reason why it should interest me more than thousands of other citizens in Edmonton. It is their loss as well as mine and if they wanted it that way I am sure willing to abide by the result. By their votes the ratepayers have decided to throw away a chance to acquire a valuable water power site and gives private capital an opportunity to make money out of something that should be owned by the city."

The total vote on the bylaw—512 of which 564 were against, leaving but 78 in favor of expending \$100,000 18 months hence to hold the option from the government on Grand Rapids in the Athabasca river.

Following was the vote in the different polling places:

Polling subdivision No. 1.—For, 22; against, 92.

Polling subdivision No. 2.—For, 8; against, 295.

Polling subdivision No. 3.—For, 42; against, 128.

Polling subdivision No. 4.—For, 6; against, 22.

BOOT AND SHOE WORKERS

St. Paul, Minn., June 20.—The annual convention of the United Brotherhood of Boot and Shoe Workers' union in this city yesterday with delegates present from many points throughout the United States and Canada. The sessions are expected to last a week or ten days and many important matters of business are to come up.

APPROXIMATELY 2,000,000 ACRES UNDER CULTIVATION IN PROVINCE

Board of Arbitration Will Meet Tomorrow

WHEN DIFFICULTIES BETWEEN ELECTRICAL WORKERS AND THE CITY, WITH REGARD TO WAGES, WILL BE SETTLED—JUDGE TAYLOR IS CHAIRMAN.

Differences between the city and members of the Brotherhood of Electrical Workers over the question of wages and other labor conditions will be aired before the arbitration board, which meets in the district court tomorrow morning at 10 o'clock.

Judge H. G. Taylor of the district court will act as chairman of the board. The other members of the board are Arthur W. Ormsby, superintendent of the municipal light department, and William Symonds, vice president of the Edmonton Trades and Labor congress, and organizer for the electrical workers.

MANY PROVINCIAL APPOINTEES IN JUNE

GOVERNMENT NAMES LARGE NUMBER OF COMMISSIONERS FOR TAKING AFFIDAVITS, JUSTICES OF PEACE, POUNDKEEPERS, BRAND READERS, ETC.

A long list of new appointments is contained in the last issue of the Alberta Gazette. No fewer than thirty-eight commissioners for taking affidavits having been appointed on May 27, according to the official government journal. Archibald H. Cameron, of Edmonton, has been appointed an acting deputy registrar, and the following new notaries public have been appointed: John William Morton, of Tofield; William Wallace, of Lacombe; Clarence H. Macdonald, of Lacombe; Alexander Ashton, of Whiffa; Daniel Joseph McNamara, of Edmonton; Robert Smith, of Stettin; and Adam Henry Goodall, of Calgary; Kenneth Gordon Craig, of Lethbridge.

Charles Hugh Dunn, of Wabamun and Clay Beaudry, of Wilfrid Laurier, are appointed justices of the peace, while one new sheriff, bailiff, Geo. Yealand, of Peace, is named in the gazette. A. Crym, of Riviere Qui Barre, is appointed process server; Richard Prosser, of Peace, is named as a whole; Perinot, of Peace, is named as a whole; E. Newton, of Kinnisno, is named as a whole.

The additions of the names of W. A. Davidson, of Coleman, and E. Allott, of Frank, is made to the list of members of the board of arbitration.

(Continued on Page Four.)

CENSUS MEN ARE NEARLY THROUGH

The work of taking the census throughout the city of Edmonton probably will be completed within the next two days, according to Census Commissioner Thibault. The enumerators from several of the districts have already returned in their forms and the others are now out after "stragglers" that have not yet been located.

"Some difficulty has been experienced in catching the men who reside at the Y. M. C. A.," said Mr. Thibault this morning. "They seem to go to bed at all hours of the night and it is hard to get them before they leave the building in the morning."

Some of the forms have been returned by the enumerators working in the rural districts. These men have until tomorrow to finish their work. In the Peace River and Grande Prairie the work may not be completed until the middle of July. Nothing has been heard from the enumerators working in these districts.

Among those who will march in the coronation day parade will be Charles Wetton, soldier war correspondent who is now in Western Canada writing a series of articles for a Winnipeg paper. He will wear the uniform he used during the South African war.

AMERICANAS ARE DISAGREE ON EXPANSION OF THE STREET RAILWAY

Edmonton Committee, at Meeting En Camera, Decide That

Original Proposition Must Stand—Strathcona Will Demand One Mile for Every Two Laid Down in Capital

Unless representatives from Strathcona and Edmonton on the amalgamation committee be able to get together and compromise the question of street railway extension in the university city is concerned.

Figures will be presented at a meeting showing that Edmonton now has a total mileage of 11.13 of street car tracks, while Strathcona has 2.75 miles of car lines. Under terms of the offer from the Edmonton committee Strathcona would get an additional 2.82 miles, giving that city a total of 5.57 miles, or just half of Edmonton's mile-

Reports Received by Provincial Department of Agriculture Show 70 Per Cent Increase in Acreage

FAVORABLE WEATHER HAS GUARANTEED RECORD YIELD

Crop reports which have just been completed by the inspectors of the provincial department of agriculture indicate that the total area of land under cultivation this year, and sown to wheat, oats and other cereal crops, is no less than 1,300,000 acres, representing an increase of over 70 per cent as compared with last year's total of 1,193,261 acres. The increase for 1911 is approximately 700,000 acres. The figures are as yet but approximate, and it is possible that the crop area may be considerably larger even than the reports indicate.

The electrical workers seek to bring about the same conditions with respect to wages, etc., as govern them in work under the provincial government. The city commissioners refused to grant this, hence the request of the employers for arbitration.

The department has had in the field 1,000 men who have now completed their returns from the various portions of the province, and the statistics which were received by George Harcourt, deputy minister of agriculture, show the above total. At noon today the analysis of the figures had not been completed, and it was not possible to determine the relative areas sown to the various crops, but the reports are almost uniformly excellent, and make it clear that not in the history of the Canadian Northwest has so remarkable an increase taken place in a period of twelve months. In one or two isolated cases, districts which are very circumscribed in extent, have failed to benefit from the almost universal rains, but these are very few, and taking the province as a whole there has been no former year during which the outlook has been so bright.

The increase in crop area is but a very meagre indication of the increase which is likely to be seen in the yield in cereal and other crops. The department is of the opinion that the yield of wheat this year will be 20 per cent greater than last year's, and the yield of other crops will be 10 per cent greater.

Last year's failure in the south through lack of rain, and the fact that nowhere except in the Edmonton district were the season's crops up to the normal level, coupled with the unusually propitious character of the present season, go to show that while the actual area under cultivation is greater by 70 per cent in 1911 than it was in 1910, the actual harvest will be very much greater than 100 per cent.

How great this increase will be has not yet been determined, but within the next couple of weeks the department of agriculture will have received additional reports, from which may be formed an estimate of the probable harvest. From the informal reports which have been received, and from a general knowledge of the conditions prevailing throughout Alberta, it is safe to prophesy that the increase will be enormous. The total yield of grain in 1910 for the province of Alberta was 22,077,191, of which 5,607,956 was in spring wheat, 2,266,554 in winter wheat, 12,158,536 in oats, 1,889,269 in barley, while the remainder was in flax, rye and spelt. Previous to 1911, 1909 was the record crop year of the province. The total crop area in 1909 was 1,242,613, and the total yield of various grains, 36,761,493.

COMPLETE CENSUS IN THE UNIVERSITY CITY

WORK OF COUNTING NOSES IN STRATHCONA WILL BE FINISHED BY TOMORROW NIGHT—CONTRACT FOR UNIVERSITY RESIDENCES LET.

Strathcona, June 20.—By tomorrow night the citizens of the University city will all be officially enumerated as nearly as possible. After a fortnight's work the enumerators of the University city have covered the prescribed area within the city limits and before the present census is closed will have their returns turned in to the department. Mr. H. Dobson completed his counting in the west end yesterday and Mr. M. G. Cairns expects to round up the east end work by tomorrow at the latest. As all the enumerators are sworn to secrecy it is impossible to ascertain what results have been obtained by the census men in this city and the population figures will therefore be unknown for some weeks yet.

Both Mr. Dobson and Mr. Cairns pay high tribute to the manner in which Strathcona citizens assisted with the census work. While few places in the Dominion appear to have found the work to proceed without more or less difficulty, in Strathcona this city has been carried out without a hitch. In no instance have the census men been subjected on the part of the interviewed and even in the foreign sections the people all showed a willingness to answer the questions.

Included in the year's building programme in the city will be the erection of four handsome residences on the University grounds for President Tully and three for the University.

AMERICANAS ARE WELL SATISFIED

SETTLERS WHO LOCATED ON CLAIM NOW AGO FIND ALBERTA LAND IS AT

That the Americans whom Dr. H. M. Dunsen, publicity agent, brought to Alberta recently are well satisfied with the land they have secured north of Edmonton is evidenced by a letter written to Mr. Morin by a young man named H. E. Dunsen, who writes from the farm he has secured a claim five miles north of Hurlburg, near Moose lake. The father and son came here from Bay city, Michigan, where the former was a mechanic and the latter studying medicine. They have been on their claim about one month.

The letter is in part as follows:— "We are very well satisfied with the land and find everything ahead of our expectations. The more we go over it the better we like it. We have built ourselves a cabin composed of poplar poles and covered with spruce bark making it waterproof and healthy. We have dug a well which gives us water as pure, clean and soft as any we have ever known. We also have cleared about three acres of the heaviest timber so you see we have not been idle since we came here."

STETTER MAN COMITS SUICIDE

CORONER DECIDES THAT AN INQUEST IS UNNECESSARY—NO REASON GIVEN FOR RASH ACT

Stettin, June 20.—Word of the suicide of George Barry, on Saturday last, at his farm two miles south of Gadsby, was received here last evening. Barry shot himself with a 38 calibre pistol, the ball striking him squarely in the forehead, and death must have been instantaneous. The body of the dead man was discovered in the granary by his brother.

Following notification of the tragedy, Coroner Donovan and Corporal T. G. Davies of the R. N. W. M. P., were driven to the farm by Geo. Skinner's automobile, and late on Sunday evening rode to the scene. After making a thorough investigation of the circumstances of the affair, Coroner Donovan declared that it was plain evidence of suicide, and that it was unnecessary to hold an inquest.

Barry was a successful farmer, 24 years of age, and both he and the family with which he is connected were among the most highly respected citizens of the community.

Edmonton Portland Cement

CAPITAL STOCK \$1,500,000

Co., Limited

LIEUT. GOV. G. H. V. BULYEA

Chairman of the Board

Article Number Nineteen

The Edmonton Portland Cement Company, Limited, is the best industrial Enterprise which has ever been developed in the Northwest. And it is of the greatest value and importance to Edmonton and vicinity. There is a cement famine in the Edmonton district right now. What the conditions will be when the demand in this district increases from 400,000 barrels a year to ten times that amount is not difficult to imagine. UNPRECEDENTED GROWTH OF THE CEMENT INDUSTRY

The growth of the cement industry has no parallel in the industrial history of the world. The following abridged table shows the growth in the production of Portland Cement in America from 1880 to 1910:

Years.	Number of barrels produced.
1880	42,000
1885	150,000
1890	335,500
1895	990,324
1900	8,483,020
1905	35,246,812
1910	74,500,000

The Edmonton district alone consumes more Portland Cement than was produced by all the mills in America twenty years ago. Last year the Edmonton district consumed about one-half of one per cent. of all the Portland Cement produced in America. But this proportion will rapidly increase.

REMARKABLE FUTURE OF THE EDMONTON DISTRICT

The territory to which Edmonton is the gateway reaches to Prince Rupert, eight hundred miles to the West, and to Fort Vermilion, seven hundred miles to the North. It is a domain more than three times as large as the German Empire. And this great country is now rapidly developing. Ten years from now Edmonton should have a population of one hundred thousand, and that would only be equal to the growth of Spokane from 1900 to 1910. This great Empire of the Northwest should have a population of half a million a decade hence, with cities and towns that are not yet even named. And all the vast construction which will mean the making of a new empire, will create a demand for Portland Cement in the Edmonton district which the present market only faintly suggests.

The production of Portland Cement in America will increase from

74,000,000 barrels in 1910 to 150,000,000 in 1920, and the demand in the Edmonton district will increase from 400,000 barrels in 1910 to ten times that amount in 1920. The Edmonton district will be consuming three per cent. of the total Portland Cement production in 1920 instead of one-half of one per cent. as at present, as the geographical proportion and unprecedented development of this great district unite to demonstrate.

PRICE OF PORTLAND CEMENT WILL ALWAYS BE FIXED BY EASTERN MILLS

Only a small part of the Portland Cement used in the Edmonton district can ever be produced here. The bulk of it will always have to come from the East and the United States. The price of Portland Cement in this district will therefore always be fixed by the Eastern mills. And that price will be the Eastern mill price, plus the freight rate to this district—the freight rate based on a haul of 2,500 miles. The Eastern mill price is about \$1.25 per barrel and the freight rates vary from \$1.85 to \$2.10 per barrel. The price of Portland Cement in Edmonton today is \$3.30 per barrel, with no cement on hand.

THE GREAT OPPORTUNITY OF THE EDMONTON PORTLAND CEMENT COMPANY

It is in these remarkable local conditions that the great opportunity of the Edmonton Portland Cement Co. lies. This Company owns materials of the very best quality sufficient for the manufacture of 15,500,000 barrels of Portland Cement. True Portland Cement can be manufactured on the Company's property, as determined by Messrs. R. D. Hassen and T. J. Klossowski at 78 cents per barrel. The Company can sell every barrel of its output at its mill door for at least \$3.05 per barrel based on a haul averaging not more than 200 miles, at a freight rate of 25 cents per barrel. This means a profit of \$2.00 per barrel, or \$640,000 on the year's output—or 40 per cent. on its entire capital stock. These are facts that no business man can deny.

SHARES WILL BE WORTH \$200.

The fact that the Company can, without doubt, pay a dividend of 40 per cent. on its capital stock, should of itself make the shares worth \$200. But the first statement published by the Company will show that its stock has a BOOK VALUE of more than \$200 per share. This statement should be substantially as follows:

ASSETS

Cash for working capital	\$ 170,000
Plant at cost	530,000
Materials purchased sufficient for the manufacture of 12,500,000 barrels at 20 cents per barrel	2,500,000 \$3,300,000

LIABILITIES

Capital Stock	\$1,500,000
Surplus to Shareholders	1,800,000 \$3,300,000

SHARES WILL SOON RISE IN PRICE

There is no reason why the shares of the Edmonton Portland Cement Co., Ltd., should not sell above par today, and they will not sell as low as par for long. Business men and large investors are beginning to see the possibilities of this company; it has already been suggested that a group of wealthy men be formed for the purpose of subscribing all of the shares offered to the public which remain unsold.

There is every reason why an association of wealthy men should undertake to do just this thing. No better investment could be found anywhere. On July 1st approximately six thousand shares will remain unsold. If a group of wealthy men were to take it all, it would mean a 40 per cent. investment or an income of a quarter of a million dollars on an investment of \$600,000. And it would mean more; these same men could advance their shares to \$110 or even \$125, absolutely ON THE MERITS OF THE PROPOSITION, and sell any part of their stock which they wish to sell to the public in sixty days, thus cleaning up an immediate profit of from \$10 to \$20 a share. The shares could easily be sold abroad by such an organization.

Nothing is more certain than that the shares will go above par as soon as work on the construction of the plant is commenced, and the shareholder who obtains shares of the Edmonton Portland Cement Co. at par now will certainly count himself fortunate before a second fortnight has passed by.

Those desiring shares can obtain all necessary information at the Company's Offices, 400-1-2 Moser-Ryder Building. Phone 217.

"A WINNING MISS"
Boyle Woolfolk's biggest and best musical show, "A Winning Miss", will be seen at Empire Theatre three nights commencing June 22.
"A Winning Miss" claims to be the most pretentious offering of its kind that has ever played here, and has every qualification that a great success should have. The scenery, costumes and electrical effects cost exactly \$40,000, and the production is as good as the first day it opened in Chicago at the Garden Theatre, which is due to it never having been on the road until this spring. The management of the Empire Theatre made a ten-strike when it secured this offering, and will undoubtedly be rewarded by capacity business during its engagement here next week.
The play has a consistent plot and is of the highest class comedy, while the musical numbers, which were written by Boyle Woolfolk and Van Fredericks, Peters, composer of "Mayor of Tokio,"

are said to equal anything in the musical line of recent years.
The piece is resistance is a dainty number called "Dix" which takes ten and twelve encores each performance. Another beautiful song is "The Land of Tomorrow," sung by Clarence Backus; "Mean Thing," "That Will Look Nice in a Bungalow," "Will O' the Wisp," "Maiden Song," "Keep Smiling," and a dozen others are all hits.
Among the novelties in the show are the double quartette, who sing "The Love Serenade" and play their accompaniments on mandolins and guitars; "Will O' the Wisp" number with the dazzling fire effect that started all Chicago in a blaze, and the Yankee Lad finale of the first act, which shows a huge battle-ship on the stage, with the entire company grouped in song.
It requires two hours to carry the scenery and effects of "A Winning Miss," and the chorus cannot be excelled for beauty and voices.

IMMIGRATION HALL
Little stories of real life with a great depth of human interest come to light every now and then down at the immigration hall. A good many families are reunited there. There are cases where a father or a brother has been in the country for some time and having secured a good foothold has written for other members of the family to join him. There are cases like these the immigration hall is often made a place of meeting.
Yesterday Mr. Gitzel, proprietor of the hotel at old Stoney Plain came to the immigration hall and wanted to see the man in charge. When the official appeared Mr. Gitzel explained that someone had advised him by phone that his brother had come to Edmonton and was at the immigration hall.
"There is the boy's name," said Mr. Gitzel pointing to the name "Gottlieb Gitzel, German" on the register in the office.
"But I wish you would point him out to me," he continued, "I would not know him if I ever saw him. He is thirty-seven years old now but when I left Germany he was a little fellow about this high," putting his hand to about the level of his knee.
Gottlieb Gitzel happened to be out at the time but his brother or waited until he returned to the hall and the two went out to Stoney Plain together.

LOCAL LIVE STOCK PRICES
The Swift Canadian Co. will pay the following prices from June 19th to June 24th weighted off ears at Edmonton:—cows and Heavies, 5 to 6; choice quality hogs, 150 to 200 lbs., 6 1-2; good fat steers, 1200 lbs. and over, 5 3-4 to 6 1-4; good fat cows, 1000 to 1200 lbs., 5 to 5 3-4; good fat quality hogs, 1600 lbs. and over, 6 1-2 to 7; medium quality fat hogs, 500 to 1000 lbs., 3 1-2 to 4 1-4; extra fat cows, 1100 lbs. and up, 4 to 5; good hogs and stags 3 1-2 to 4; good calves, 125 to 200 lbs., 5 to 5 1-2; good calves, 200 to 300 lbs., 4 to 4 1-4.

THINGS ARE MOVING IN

Cromdale

On Monday, the 26th day of this month, the price of all lots in Cromdale will be advanced \$25.00.

Cromdale is an ideal site for a home, adjoining as it does the City Park, where the city is spending so much money on improvements. Cromdale is but twenty minutes walk from the centre of the city, and has two lines of street cars running through it. All lots are high and dry.

Cromdale is the best buy in the city.

Price of lots until next Monday \$275 to \$450.

Terms 1-3 cash, balance 6 and 12 months.

Military Point Cooking Lake

Well, where did you get the name, some of our friends ask us.

Well, this is the spot where the Hundred and First Regiment made their camp last year. They had a good time. They selected the place because the land was high and dry, the beach good and the distance from the station short; plenty of good shade trees and a score of other qualifications. So the owner of the property did them the honor to name the subdivision "Military Point."

Lots are selling at Military Point for the very reasons above mentioned. There will be special train service all summer long. The rate is to be 90c. for the week-end.

The price of lots is

\$150.00 to \$200.00

and the terms are easy.

Dan Simons will embark in the grocery business in Jasper avenue west, Edmonton as soon as his store building is completed. We wish him health and wealth, and firmly believe he will gain the latter, for the simple reason

that he usually knows about where he is at, and that is more than can be said of a majority of the men who are in business in Fort Saskatchewan, who usually live off something that sticks in their crop. — Fort Saskatchewan Chronicle.

AWARD CONTRACT FOR NEW PUMP

PETITION DEMANDING INVESTIGATION OF POLICE DEPARTMENT Laid on Table

The city commissioners yesterday afternoon awarded the contract for a big water pump to the Inalls company, acting on the recommendation of Mayor Armstrong and Superintendent Hoffman of the municipal power plant. The order will be placed at once. The pump will cost \$7,100, including the work of an erecting engineer. Mayor Armstrong stated that the pump should have been purchased three months ago, and installed for service this summer but as the matter stood now it would be a little use to the city before next spring.

The new pump will have a capacity of 6,000,000 gallons of water in 24 hours and is said to be one of the best in the market, being highly recommended by experts and all who have seen it work.

Pending the settlement of charges in court involving troubles between Officer McNaughton and John Downie, the commissioners postponed action on the petition of George Wyllis and Robert Davidson, asking for an investigation of the police department, and especially into the character of McNaughton. The petition was read in full and laid on the table.

The petition failed that as citizens and stonecutters of Edmonton, they desired to protest against what they termed the malicious treatment of Mr. Downie, a fellow craftsman, on Alberca avenue recently when, as they contended, McNaughton, without just provocation, viciously assaulted Downie, after the latter and some friends had been told by the officer in plain clothes to move on.

Would Have Second County Island The commissioners decided to notify Chester McNaughton that his proposition to provide amusements at the city park would not be entertained.

A communication was read from Walter S. Campbell offering to establish a second County Island on the exhibition grounds. Referred to Commissioners Gandy and Kearney.

A representative of Barnes animal show appeared before the commissioners and protested that the city license of \$250 a day for shows of that character was prohibitive so far as his people were concerned. He wanted to go on the show on Monday, July 3 and 4 and inquired if the license could not be reduced, as the Barnes show could not afford to pay as much as a large circus. Commissioner Bouillon suggested that the request be referred to the city council with a recommendation that the by-law governing such matters be amended so that shows and circuses may be classified as to size and carried equally. The Barnes man said he might call on the council tonight.

City Not Collection Agency

A letter was laid before the commissioners requesting that the wages of a certain employee be turned over to a company that had advanced the employee money some time ago.

"We can't turn this city into an agency for the collection of private accounts," observed the mayor in commenting on the unusual request.

The letter was thereupon ordered returned to the person who sent it to the commissioners.

The commissioners received tenders for the city's debentures amounting to \$1,700,000. They were referred to Mr. Bulehart and Secretary-Treasurer Crosskill for tabulation and report. The following financial institutions submitted tenders:—The Dominion Bond Co., Ltd.; C. H. Burgess & Co., on behalf of C. P. Spencer, London, England; The Royal Securities Corporation, Ltd., of Montreal; Stinson & Co., of Toronto; Wood & Gundy & Co., Ltd., The Imperial Bank of Canada; The Dominion Securities Corporation; The Ontario Securities Co.; Amulius Jarvis & Co., Toronto; Coates, Son & Co., of London, England; The Merchants Bank of Canada, and The Canadian Agencies, Ltd.

On motion of Commissioner Bouillon orders will be placed for stickers to be used in connection with machinery at the power plant with the Westinghouse company, Green Engineering company and the Babcock-Wilcox company.

CORONATION SALUTE Will Be Fired From Old Cannon Used Wears Ago By Edmonton's Bay Company

The coronation day celebration committee is making arrangements whereby a salute of guns will be fired in Edmonton at 8:25 o'clock on the morning of June 22, the exact time upon which the crown will be placed upon King George's head in Westminster Abbey. In Great Britain the time corresponds 2 o'clock in the afternoon.

Two old pieces of artillery which are at present stored in the old Hudson Bay Co. fort at the foot of Smith street, will be fired by way of salute. A number of old artillerymen resident in the city will be secured.

PROTECT ROYALTY FROM ANARCHY Scotland Yard Taking Precautions for Coronation

London, June 20.—Invitation cards are now being issued for the coronation ceremony in Westminster Abbey where two additional rehearsals will be held this week. The Indian troops are now located at Hampton Court, and, together with the Canadian contingent, are being made welcome at various attractions and entertainments.

Scotland Yard is taking strict precautions to guard against any attempts to be anarchists, as on the occasion of the coronation processions. All those having control of the seats on the lines to the route have been required to furnish the names and addresses of all foreigners booking seats or windows, to enable inquiries to be made, and, as usually strict watch is being kept

Rocky Rapids Scheme May Furnish Solution

The vote on the Grand Rapids power bylaw is pretty conclusive evidence that very few took this proposition seriously.

A power site 120 miles away which would cost four or five millions to develop, is not what Edmonton wants, and even the formality of voting a bylaw to hold it for a year did not appeal to the rate-payers.

This having been disposed of, let the council now make a common-sense investigation of the Rocky Rapids site on the Saskatchewan to discover if it is feasible to develop power at that point, and if so, how much it will cost to acquire it and what a 20,000 horse power hydro-electric plant will cost.

Edmonton cannot forever depend on steam power, and failing the discovery of gas the Rocky Rapids may furnish the solution. The time to look into the question is now.

Investigation Will Show If Policeman Will Show

The case of Messrs. Wyllie and Davidson, the two stonecutters who claim that they were wantonly and grievously assaulted by a plain clothesman, is one which merits investigation.

While it is not justice to consider the officer guilty of rufianism until the case against him has been established, it is a fact that there have been some things perpetrated under Chief Ennor's rule which are to say the very least disgraceful, the most glaring of which was the case of assault by the chief himself on Alex. R. Groff, as peaceful and law-abiding a citizen as the city can boast, and for which the chief was found guilty and fined in the police court in which the chief himself is usually the prosecuting officer.

An investigation of the McNamara case, if the officer is innocent, cannot harm him. If he is guilty, common justice demands that the officer be punished as a common rowdy and that such amends be made to the victims of his rufianism as the city can make under the circumstances.

Edmonton a Metropolis And Developing Centre

Another new passenger service went into force yesterday when the Grand Trunk Pacific started its first train on the Tofield branch.

Time was, and not so long ago, when the inauguration of a train service in Edmonton was a matter of great joy and wide celebration. How many remember the day when the first C.N.R. train entered the city?

And yet, the country made tributary to Edmonton by this new service which was inaugurated so unostentatiously yesterday probably contains more people and grows more grain than the country brought tributary to Edmonton did at the time the C.N.R. commenced operating.

The circumstance is intensely illuminative in the respect that it shows the comparative growth of the city. The addition of a new train service now-a-days is not an epoch-making event. It is merely an other feeder. Edmonton has become a metropolis and distributing centre.

Canadian Development Greatest in all History

With the season well advanced and with the conditions the most favorable known in years, if not in the history of the country, the 1911 crop is now almost absolutely assured. Practically speaking, there is now no possibility of any failure in any section in the whole northwest. The acreage is by an enormous area the largest ever known, the weather during seed time was propitious and the growing season has been in every respect ideal. The crop is now farther advanced than at this time in any year in the recorded years since crop growing began west of the lakes. One report places the total damage so far sustained on all counts in all parts of the country at not more than one-half of one per cent. The total crop, according to the best available estimates, will be 200,000,000 bushels of wheat alone, and the oats, barley, flax and other crops will be at least double those of last year.

It is difficult to appreciate what this all means. A country which twenty-five years ago was practically uninhabited and whose grain crop was a negligible quantity in the world's estimate is in one year doubling its production. All the wonderful progress and remarkable growth of the last decade, a growth which has made western Canada the synonym of enterprise and prosperity throughout the world, is to be duplicated in one short year. Where there was one dollar in circulation last year there will be two this year.

The impetus or trade that will follow this year's crop will be the greatest the commercial world has ever seen. The inducement to settlers will be greater than ever and the lure of Western Canada will be well nigh irresistible to those agriculturalists in other parts of the world who find conditions in their present surroundings not to their greatest advantage.

Western Canada is making a new town every day; not in the old and slow-going way in which towns have been evolved in the past, but creating them complete from the bald prairie with all modern improvements, ready for the business which awaits them. Next year Western Canada will produce two towns a day and next year the grain in crop production will undoubtedly be as great as this.

Western Canada is experiencing an era of growth and development which is the greatest that history has ever recorded or the human race has ever known, and it is all due to the fertility of the soil and the industry of the people.

JUST PARAGRAPHS.

Max Aitken, the cement merger man, was knighted.

Five thousand people attended the band concert in Calgary on Sunday and nobody said a word.

Baseball is really not much of a game after all. And anyway, what could you expect but an uncouth interpretation of any science in Calgary.

PIONEER GOES ON LONG TRAIL

FUNERAL OF LATE JAMES KIRKNESS TO BE HELD TOMORROW FROM FAMILY RESIDENCE

The funeral of James Kirkness, who died on Sunday at his residence on his old homestead in the east end of the city, will be held tomorrow at 2 p.m. The funeral services will be conducted at the house by Rev. J. E. Hughes of Mcdonald Methodist church. No service will be held at the cemetery. The remains will be interred at the Edmonton cemetery.

With the death of Mr. Kirkness, one of the real old timers of Edmonton passes off the stage. It is safe to say that few of the men who came to this section of the country in the early days have a better knowledge of the country from actual experience than had this pioneer.

Mr. Kirkness came to Canada from Scotland in the year 1866, to go into the employ of the Hudson's Bay company at Norway house.

After spending five years with the company at that post he came to Edmonton in 1871 and lived directly to the Hudson's Bay post at Rocky Mountain house where he remained for a period of two years. He was accompanied to Edmonton from Norway house by Dr. McKay, who now resides at the corner of Fifth street and McKay avenue.

After spending two years at Rocky Mountain house, which was at that time one of the remote outposts of the company, Mr. Kirkness moved to the post at Edmonton and remained here for two years. He was married in 1874 to Sarah Sinclair and shortly afterward transferred to the Hudson's Bay post at Lac St. Anne. He spent five years at this post, after which he left the employ of the company and returned to Edmonton.

In 1882 he homesteaded river lot 26, part of which is now the city park and the exhibition grounds. In 1889 he again entered the employ of the Hudson's Bay company and went to the Peace River in the service of a ranchman, which was being stocked by a large number of polled assay cattle. At that time his son Henry settled in the north country and still lives there. Mr. Kirkness returned to Edmonton in 1891 and since that time has been living at his home in the east end of the city. He leaves to mourn his loss his wife and three children, Henry in Grande Prairie and Charles and Edith who reside at home.

COMPLETE CENSUS IN THE UNIVERSITY CITY

Continued from Page One.

other members of the faculty at the institution. The contract for the construction of these new buildings was signed yesterday afternoon by Mr. A. McSparran of Edmonton and a start upon erection will probably be made tomorrow. Plans for the buildings were prepared last year but circumstances prevented their being carried out during the season and consequently the Senate of the University took steps early this year to set the work under way and it is required that the residences be ready for occupancy during next September.

The contract price for the four new residences is understood to be in the vicinity of \$25,000. More than one-third of this amount will be put into the dwelling intended for President Tory, which is to be one of the best residences in the city.

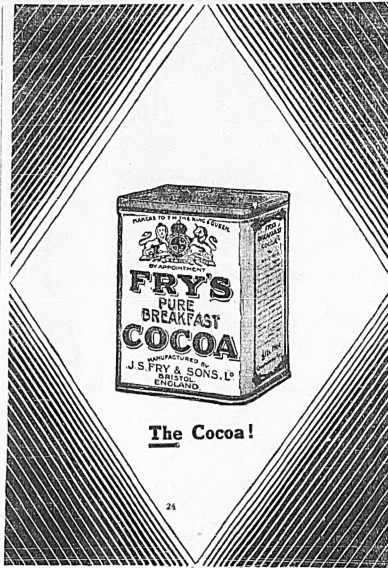

The three other residences to be erected this summer are for professors W. A. R. Kerr, W. M. Edwards and A. Lehmann. The buildings for Dr. Tory and Dr. Kerr will be constructed entirely of brick while the other two will be of combined brick and frame. It is understood that residences for the use of other members of the university faculty will be built next year. Two professors, Dr. Broadbent and Dr. Alexander, had their own homes built last year on sites southwest of the university grounds. The new residences will be located on the west side of the university grounds fronting on Saskatchewan avenue, the site being a particularly commanding one from a scenic viewpoint.

Messrs. Wilson and Merrall of this city are the architects for the new buildings and their plans provide for thoroughly modern dwellings of comfortable interior and pleasant exterior design. The contract for their erection will be the second large undertaking secured by Mr. McSparran in this city, he having built the new O.M.I. college in the east end last year.

As evidence of the growth that is being made in the district east of Mill creek the construction of a new store building has been begun on Whyte avenue two blocks east of the high level bridge. Mr. H. W. Wilson of 315 Third Ave. N.E. is having the store erected and contractors Gendron and Oliver have already broken ground for Mr. Wilson's new store. Some months ago purchased a block of land Whyte avenue and Eleventh street east, at present in city limits, and it is open a part of this property that the new store will be situated. Within the past year settlement has extended very rapidly in the various subdivisions across the valley and the need of a general store in the vicinity has been considered urgent.

Officials of the G. P. R. telegraph system were in the city Saturday on an annual tour of inspection and recently found local conditions very satisfactory. The party included B. S. Jenkins, Gen. Supt., Winnipeg, and Mr. McMillan, superintendent, Calgary. The officials left for the south Saturday afternoon.

At the home of Mrs. Wm. McLean in Vancouver tomorrow will take place the marriage of two of Strathcona's well known young people, Miss Lena Armstrong and Mr. G. B. Brock. After the ceremony the young couple will leave for a short trip to Victoria, Seattle and other coast cities planning to return to

The Cocoa!

Strathcona about July 4th. For the past year Miss Armstrong has been living with her aunt, Mrs. McLean, in Vancouver. Mr. Brock has for some years been a clerk in the forest department of the C.P.R. at this point. Upon their return to this city Mrs. Brock, Armstrong, mother of the bride, will tender the young couple a reception at her home on sixth avenue south, where Mr. and Mrs. Brock will thereafter reside.

MANY PROVINCIAL APPOINTMENTS IN JUNE

(Continued from Page One.)

of the board of examiners for fire licenses. The Standard Trusts Co. are appointed official assignees for the judicial district of Alberta, and also the official guardian and public administrator for that district.

Under the provisions of the game act, the minister of agriculture has appointed B. A. Muir, of Prairie Grange as game guardian, while under various

other ordinances, the following appointments have been made: Fire guards, Robert Boyd, Medicine Hat; Geo. McLean, Crossfield; stock inspectors, J. H. Graham, of Donnelly, W. A. Armstrong of Botha, Ray Meiser, of Stony Plain.

Poundkeepers have been appointed as follows—O. H. Baughman, of Sweet Valley; the pound to be kept on Section 28, Township 15 Range 19 west of the Fourth Meridian; E. Goddard, of Lucky Strike; the pound to be kept in Township 4 Range 12 west of the Fourth Meridian; H. A. Feenberg, of Greenleaf; the pound to be kept on the southeast quarter of Section 20 Township 54 Range 4 west of the Fourth Meridian; Randolph J. Bell, of Hayter; the pound to be kept on the southwest quarter of Section 14 Township 29 Range 4 west of the Fourth Meridian.

New brand readers are Sam Doran, of Chesterville, and J. S. Reynolds, of Goral.

SELL DEBENTURES THIS EVENING

ROYAL SECURITIES CO., MONTREAL
OFFERS \$95.68 FOR BLOCK TALLING \$1,730,101

The board of commissioners will submit a report to the city council tonight recommending acceptance of the tender of the Royal Securities Corporation, Limited, Montreal, for the issue of city debentures, amounting to \$1,730,101. The Commissioner of Public Works and Secretary Treasurer Crosskill this morning tabulated the tenders upon which the recommendation is based, and this no doubt will receive favorable action at the hands of the council.

Following are the tenders received by the commissioners and the tabulation, showing the amount each bidder offered for the city's debentures: Royal Securities Corporation, Ltd., the successful tenderer, 99.83; C. H. Burgess and company, 99.58; Imperial Bank of Canada, 99.55; Dominion Securities Corporation, Toronto, 99.25; Merchants Bank of Canada, 99.65; G. A. Stinson and Co., Toronto, 99.23; Ontario Securities Co., 99.81; Wood, Gundy Co., 99.16; Dominion Bond Co., Limited, Toronto, 99.81; Coates, Sun and Co., 99.625; Canadian Agencies, Limited, 99.25. The issue will net the city about \$3,000 less than par, and is one-fourth of one per cent lower than last year.

The debentures cover expenditures incurred by the city in making a variety of municipal improvements. The issue runs eight, ten, twenty and forty years. The ten year debentures will be paid by installments, the principal being reduced each year, while the eight, twenty and forty year debentures are known as straight term debentures.

On the latter the principal will not be paid until the expiration of the term called for. Interest on both installment and straight debentures will be paid semi-annually.

THE WEATHER

Winnipeg, June 20.—Alberta.—Fine and moderately warm. Fine and very warm weather has been general over the prairie provinces. Some showers and thunderstorms have occurred chiefly in Saskatchewan.

NEWS OF THE CITY

The ladies aid of Grace Methodist church purpose holding a lawn social on July 4th at Mrs. Clumman's, corner Jasper and Kinistino.

The contract for the basement and concrete foundation of the new Massey Harris building on Howard avenue has been awarded to Nesbitt and Miller. E. Wright, architect will supervise the work of construction.

Two sisters from the Catholic hospital at Missoula, Montana, were visitors at the Misericordia hospital yesterday. They left last night for North Battleford where a new hospital is to be opened.

The Alberta Electric company is supposed to have purchased a right of way through the heart of McLeod recently and the township are looking for developments. Big prices were paid for the land but it is not definitely known who are behind the deal.

W. L. Hall who has been committed for trial on two serious charges and against whom there are still ten charges pending will be tried this afternoon on two charges of theft. The thefts were alleged to have been from the Grand Trunk warehouse near Edson.

The police are having difficulty in securing the conviction of Gane Forrest on a charge of keeping a bawdy house. The case has been adjourned five times already in order to allow the police to secure further evidence. The case came up for hearing before Magistrate Cowan this morning was adjourned for a week, the police not having their case ready for trial.

Charged with having disposed of a portion of his stock with intent to defraud creditors, E. Bourque, former proprietor of the Inn Clear store was arraigned in the district court before Judge Taylor this morning. The case for the prosecution was not completed at noon, and the whole of the day will probably be taken up by the hearing of evidence.

After a delay of almost a month the police department has secured a stenographer for the police court. Mr. Walter H. Walsh, late of the Winnipeg Police court stenographer, Mr. Walsh assumed his duties on Friday, June 17. During the weeks in which the court had no shorthand writer the magistrate himself had to take every word of evidence in long hand.

A comprehensive little booklet descriptive of the town of Stettler and the surrounding district has been issued by the board of trade of the town. A number of copies have been sent to the Edmonton office of the Central Alberta Development League for distribution here.

The case of a young Wetaskiwin man who was charged by license inspector Hodgkins with having obtained liquor while interdicted was heard this morning in part. The case was adjourned until this afternoon in order to allow the provincial license inspector to secure evidence as to the validity of the interdict.

Edmonton and Strathcona school teachers to the number of 100 will take an excursion trip down the Saskatchewan river this evening. The trip has been arranged by the Edmonton teachers club.

During the greater part of the present week the government buildings will be in charge of the deputy ministers. Hon. C. R. Mitchell, acting premier, is now in his constituency in the south of the province, and will not return in all probability until early next week. Hon. Duncan Marshall, minister of agriculture and Hon. Arch. McLean, provincial secretary, are in the east.

SUPREME COURT

June sittings of the supreme court were opened this morning. Mr. Justice Simmons on the bench. The cases were set down for hearing and the court adjourned until 2 o'clock. The following cases will come up for trial in the order given on the list:

Old Cases
Mellon vs. Praelz.
Blundery vs. Occidental Life.
Collins vs. Eaton.
McLaren vs. St. Denis.
Johnson vs. Johnson.
Schulzberger vs. Sigler.
Nash vs. Journal.
Powell vs. Campbell.
Powell vs. Scott.
Beaton vs. Bull, et al.
Forest vs. Home Industries Co.
Hefner vs. Lastwicki.
Robertson vs. Ramsay.
Housley vs. Watson.
Evans vs. Evans, et al.
Murphy vs. Dull.
New Cases
Shipley vs. Hudson.
Park vs. Schaeffer.
Wyrkowski vs. Mullix.
Trotter et al. vs. Donald.
McDonald vs. Walter, et al.
Ganong vs. McKernan & Malin.
Skinner vs. Lloyd.
Reid vs. C. N. R.
Bell vs. Gaudin.
False Greek Lumber Co. vs. Sloan et al.
Baker vs. Ware.
Western Land Co. vs. Heils.
Brown vs. City of Edmonton.
Compton vs. Commercial Union.

A Sound Investment

\$375 PER LOT, ON 28TH STREET

FOR ONE WEEK ONLY, we are offering a block of beautiful lots (45x140), located on the west side of 28th Street, at the above price. Anyone acquainted with real estate values in this city knows the value of this property provided it is really good ground. Let us show you the property, and we are confident you will be satisfied. To those who do not know values, we might suggest that there are no good lots on 27th Street, south of Alberta Avenue, for sale less than \$500 per lot.

WANTS COMPANY TO PUT UP BOND

UTILITIES COMMISSIONER ASKS FIRE ALARM CO. TO SAFEGUARD CITY AGAINST FALSE ALARMS

Representatives of the May-dayway fire alarm system, local business men and Utilities Commissioner Bouillon were in conference for an hour or more at Mayor Armstrong's office this morning trying to reach an agreement on the question of installing the system in Edmonton business houses.

Besides the mayor there were also present representatives of fire insurance companies, who urged that the alarm system when installed would have the effect of reducing fire insurance rates in the city. Commissioner Bouillon still held out for conditions imposed in the original proposition from the city. He wanted the May-dayway people to put up a \$5,000 cash bond to indemnify the city in the event of damage arising from false alarms, etc., but this they declined to do for the privilege of doing business here. No definite decision came out of the conference and it is not known what steps may be taken to overcome objections of the May-dayway firm to the bond proposition.

ALBERTA COLLEGE EXHIBIT

Work and methods of Alberta college will be demonstrated in the industrial building at the fall fair, upon a stand of 13 feet frontage for which application was made at the exhibition office this morning. Two stenographers will be on the grounds throughout the days of the fair, and will carry out free of charge any stenographic work which may be required during the week.

The final rehearsal of the chorus and orchestra which are to furnish the body of the programme of the free concert in the Thistle rink on Thursday evening was held last evening at the old McDougall National church on First street at 8 o'clock. It is the ambition of the musical committee to have a chorus of 400 voices on the platform when the Lieutenant-Governor enters the auditorium, and the patriotic programme begins.

EMPLOYMENT BUREAU — WANTED
quick; 100 men for C. P. R. work; steady positions at all times for railroad work. Largest list and suppliers of men for railroad contractors in the west. Satisfaction guaranteed. O. Hansen and Co., 622 First street, Phone 2614.

GRANDE PRAIRIE RAIL WILL BE COMPLETED WITHIN TWO WEEKS

Government Road Builders Are Cutting New Trail Thirty-Five Miles in Length Which Will Ensure Good Highway to Grande Prairie

According to J. H. Taft, who is operating a stage line on the Edison wagon road to Grande Prairie, the train will be in condition to admit of settlers taking light loads over it in the course of about two weeks. Mr. Taft is now operating a stage on the northern end of the trail between Sturgeon lake and the Big Smokey river. There is a strip of about 35 miles of road leading through low country south of Sturgeon lake, on which he is still using pack horses, while on the southern end of the trail between Edison and the Little Smokey the stage is in operation.

The government road builders are at work cutting an entirely new road along the ridges to take the place of the thirty-five mile stretch of low road that is being used. When the new trail is finished there will be a good wagon road right through to Grande Prairie and Mr. Taft will be able to do away with his pack horses entirely.

The south end of the trail up to the Little Smokey river is reported to be in excellent condition as is also the northern end of the trail from Sturgeon Lake to the edge of Grande Prairie. Mr. Taft used to make his stage line on his return to Edison he took with him another stage coach for use on the Edison-Grande Prairie road.

GOVERNMENT PURCHASES A HERD OF REINDEER

Will be Taken to Fort Smith Where They Will Take Place of Dog Teams Pass Through City in September

OTTAWA, June 20.—The Government of Canada has made an addition to the transportation facilities of the country by the importance of reindeer. The purchase was made from Dr. Grenfell of Labrador who is being paid \$1 dollar for each reindeer. The reindeer will be taken from Labrador by boat to Quebec in September and will go by train to Edmonton or to Alibabasca Landing if the Canadian Northern has rails down to that point early in the season. Snows will be built to complete the journey down the Athabasca river to Fort Smith which is the destination of the herd.

The reindeer have proved a great success in Labrador. As the conditions have been found entirely suitable for them and the original herd of three hundred has grown by natural increase to some twelve hundred. They have proved to be good for travel and their flesh and milk has proved a boon on more than one occasion. It is believed that they will prove even more useful in the Canadian north where dog teams are now used for winter travel.

The great problem of finding good teams which has to be calculated upon where dogs are used is solved by the reindeer which thrives upon moss and lichen.

The herd of the reindeer district and the stock exchange were brilliant with the coronation illuminations last night. The coronation splashed brightly on the muddy streets enjoying the patriotic show. Traffic was congested last night in the vicinity of the palace. Deputations, this being the centre of interest, London will have little rest until the coronation is over.

Large numbers of workmen are at work putting the finishing touches on the coronation and they are constantly watched by a crowd of spectators. The king and queen had a busy day yesterday, receiving a large number of visiting royalty and during the forenoon bringing with them gifts and addresses. At the visiting people and the princesses and the lesser members of the royal families with the Duke and Duchess of Connaught and John Dicks flanked the personal representatives of President Taft were presented. The grand state dinner will be held Friday night at the royal palace. Most pretensions affair ever held in England.

Number 2 fire brigade made a run to 250 Elgin street at 1:45 this morning and extinguished a blaze in a pile of rubbish at the rear of the house. No damage was done.

FLAMES THREATEN MARIPOSA, CALIF.

FIRE SPREADS FROM BURNING OIL WELL—TELEGRAPH OPERATOR FORCED TO VACATE POST

San Francisco, June 20.—Word has been received in the city that the town of Marioposa, situated in the centre of a vast oil district, is on fire and that there are indications the entire town will be wiped out. So far as can be learned the blaze started from a burning oil well. At last reports the operator had been forced to leave his post owing to the proximity of the flames and no detailed report of the forthcoming conflagration will be forthcoming until a messenger from this city can return.

COURTS DEPRIVE MEMBER OF SEAT

JUDGES DECLARE UNDER SECRETARY OF STATE WAS ELECTED THROUGH CORRUPT PRACTICES

London, June 20.—Chas. F. G. Masterman Under-Secretary of State in the Home Office today was deprived of his seat in the House of Commons for the North division of Westham by the law courts which found that his election was secured by corrupt practices on the part of his agents. The judges said the law rested upon Masterman personally.

YALE CLASS DAY EXERCISES

New Haven, Conn., June 20.—Class day at Yale University yesterday proved to be one of the most interesting and delightful celebrations seen here in years. Each of the classes of the year—academic, scientific, law and medicine—conducted services closely followed by the exercises of the day. The occasion, at the law school the exercises in the grand hall were presided over by Attorney-General Wickham.

MAYOR SAYS CAPITALISTS DEFEATED POWER BY LAW

DECLARES HYDRO-ELECTRIC FRANCHISE IS WORTH MILLIONS AND PRIVATE INTERESTS ARE READY TO TAKE IT OVER—VOTE STOOD 564—78 AGAINST.

Defeat of the bylaw contemplating development of power from the Athabasca river and the private interests will step in and acquire a franchise worth millions of dollars, according to Mayor Armstrong. He says that certain individuals stand ready to take over the proposition, finance the scheme and put it into actual operation within a reasonable length of time. In fact the mayor asserts, these same individuals made overtures to the city commissioners and himself several months looking to that end, and now, he adds, they have the opportunity they sought. He believes that these capitalists contributed largely to the defeat of the bylaw.

"While I regret the outcome of the election yesterday," said Mayor Armstrong this morning, "I am not at all sure why it should interest me more than thousands of other citizens in Edmonton. It is their loss as well as mine and if they wanted it that way I am surely willing to abide by the result. By their votes the ratepayers have decided to throw away a chance to acquire a valuable water power site and give private capital an opportunity to make money out of something that should be owned by the city."

The total vote on the bylaw was 642, of which 564 were against, leaving 78 in favor of expending \$100,000 18 months hence to hold the option from the government on Grand Rapids in the Athabasca river. Following was the vote in the different polling places:

1.—For, 22; against, 92.

APPROXIMATELY 2,000,000 ACRES UNDER CULTIVATION IN PROVINCE

Board of Arbitration Will Meet Tomorrow

WHEN DIFFICULTIES BETWEEN ELECTRICAL WORKERS AND THE CITY, WITH REGARD TO WAGES, WILL BE SETTLED—JUDGE TAYLOR IS CHAIRMAN.

Differences between the city and members of the Brotherhood of Electrical Workers over the question of wages and other labor conditions will be aired before the arbitration board, which meets in the district court tomorrow morning at 10 o'clock.

Julius H. G. Taylor of the district court will act as chairman of the board. The other members of the board are Arthur W. Ormsby, superintendent of the municipal light department, and William Synnott, vice president of the Dominion Trades and Labor congress, and organizer for the electrical workers.

Mr. Synnott arrived last night from his home in Leithridge and is ready for the work involved in trying to reach an agreement between the city and electrical workers.

The electrical workers seek to bring about the same conditions with respect to wages, city as govern their class of work under the provincial government. The city commissioners refused to grant this, hence the request of the employees for arbitration.

MANY PROVINCIAL APPOINTMENTS IN JUNE

GOVERNMENT NAMES LARGE NUMBER OF COMMISSIONERS OR TAKING AFFIDAVITS, JUSTICES OF PEACE, POUNDKEEPERS, LAND READERS, ETC.

A long list of new appointments is included in the last issue of the Alberta gazette, no fewer than thirty-eight commissioners for taking affidavits having been appointed on May 27, and thirty-nine justices of the peace, while one new sheriff, Ralph Geo. Yealand, of Pakenham is named in the gazette. A. Cryen, of Hiverville (qui barre), is appointed process issuer; Richard Proctor, of Edson; Gomer, F. Kuhens, of Vermilion; issuer of marriage licenses, E. E. Newton, of Kinrossdale, official auditor.

Other appointments of the names of W. A. Davidson, of Glenora, and F. Allott, of Brazeau, is made to the list of members.

(Continued on Page Four.)

CENSUS MEN ARE NEARLY THROUGH

WORK OF TAKING THE CENSUS THROUGHOUT THE CITY OF EDMONTON PROBABLY WILL BE COMPLETED WITHIN THE NEXT TWO DAYS, ACCORDING TO CENSUS COMMISSIONER THIBAUDAN. THE ENUMERATORS FROM SEVERAL OF THE DISTRICTS HAVE ALREADY TURNED IN THEIR FORMS AND THE OTHERS ARE NOW OUT AFTER "STRAGGLERS" THAT HAVE NOT YET BEEN LOCATED.

"Some difficulty has been experienced in catching the men who reside at the Y. M. C. A.," said Mr. Thibaudan this morning. "They seem to go to bed at all hours of the night and it is hard to get them before they leave the building in the morning."

Most of the families have been returned by the enumerators working in the rural districts. These men have all tomorrow to finish their work. In the Peace River and Grande Prairie the work may not be completed until the middle of July. Nothing has been heard by tomorrow of the enumerators working in these districts.

Among those who will march in the coronation day parade will be Charles Weldon, soldier war correspondent who is now in Western Canada writing a series of articles for a Winnipeg paper. He will wear the uniform he met during the South African war.

BOOT AND SHOE WORKERS

St. Paul, Minn., June 20.—An annual convention of the International Boot and Shoe Workers' union in this city yesterday with delegates present from many points throughout the United States and Canada. The sessions are expected to last a week or ten days to yield further concessions to Strathcona so far as street railway extension is concerned.

AMERICAN COMMITTEES DISAGREE ON EXTENSIONS OF THE STREET RAILWAY

Edmonton Committee, at Meeting En Camera, Decide That Original Proposition Must Stand—Strathcona Will Demand One Mile for Every Two Laid Down in Capital

Unless representatives from Strathcona at Edmonton on the amalgamation committee are able to set together and compromise the question of street railway extension in the university city, the whole consolidation scheme may fall through. Members of the committee from Edmonton met last evening and discussed the matter at some length. What decision they reached has not been given out, each of the members maintaining a strict silence on the subject, but it is reported that when the joint committee holds another session in the city tomorrow night they will stand pat and decline to yield further concessions to Strathcona so far as street railway extension is concerned.

Figures will be presented at the meeting showing that Edmonton now has a total mileage of 11.14 of street car tracks, while Strathcona has 2.75 miles of car lines. Under terms of the offer from the Edmonton committee Strathcona would get an additional 2.85 miles, giving that city a total of 5.57 miles, or just half of Edmonton's mileage at present. With a population six times greater than Strathcona, the members of the Edmonton committee insist that to give the university city over five miles of street car lines would be a reasonable proposition.

However, it is pointed out, Strathcona wants four or five miles more than Edmonton has agreed to, and upon this point much will depend whether the joint committee comes to an agreement. Questions of boundary and street bed and bridge will be more easily settled.

Reports Received by Provincial Department of Agriculture Show 70 Per Cent Increase in Acreage

FAVORABLE WEATHER HAS GUARANTEED RECORD YIELD

Crop reports which have just been completed by the inspectors of the provincial department of agriculture indicate that the total area of land under cultivation this year, and seeded to wheat, oats and other cereal crops, is not less than 1,900,000 acres, representing an increase of over 70 per cent as compared with last year's total of 1,193,261 acres. The increase for 1911 is approximately 700,000 acres. The figures are as yet but approximate, and it is possible that the crop area may be considerably larger even than the reports indicate.

The department has had in the field 1,000 men who have now completed their returns from the various portions of the province, and the statistics which were received by George Harcourt, deputy minister of agriculture, this morning, show the above total. At most today the analysis of the figures had not been completed, and it was not possible to determine the relative areas sown to the various crops, but the reports are almost uniformly excellent, and make it clear that not in the history of the Canadian Northwest has so remarkable an increase taken place in a period of twelve months. In one or two isolated cases, districts which are very circumstantially in cotton, are affected to benefit from the almost universal rains, but these are very few, and Mr. Harcourt, in conversation with the press, has been no more than to say that the outlook has been so bright.

The increase in crop area is but a very meagre indication of the increase which is likely to be seen in the yield in cereal and other crops.

Last year's crop was the south through lack of rain, and the fact that nowhere except in the Edmonton district were the crops up to the normal level, coupled with the unusually propitious character of the present season, so to show that while the actual area under cultivation is greater by 70 per cent in 1911 than it was in 1910, the actual harvest will be very much greater than 100 per cent.

How great this increase will be has not yet been determined, but within the next couple of weeks the department of agriculture will have a considerable number of reports, from which may be formed an estimate of the probable harvest. For the informal reports which have been received, and from a general knowledge of the conditions prevailing throughout Alberta, it is safe to prophesy that the increase will be enormous. The total yield of grain in 1910 for the province of Alberta was 22,027,181, of which 5,697,556 was in spring wheat, 2,506,561 in winter wheat, 12,558,550 in oats, 1,889,509 in barley, while the remainder was in flax, rye and clover. Previous to 1911, 1909 was the record crop year of the province. The total crop area in 1909 was 1,242,641, and the total yield of various grains, 25,743,093.

The south country is enjoying an exceptionally good season this year, said Mr. Harcourt, in conversation with the press. The south country, which is suffering from lack of rain last year, this year enjoying the best season they have known since Alberta became an agricultural rather than a ranching country.

Tomorrow the completed statistics will be able, showing the average in spring and fall wheat, in oats and barley will have been prepared by the department as accurate. A couple of weeks ago the report was that 70 per cent of the reports upon crop area had been received, and the greater portion of the information has come into the office of the deputy minister during the past week.

COMPLETE CENSUS IN THE UNIVERSITY CITY

WORK OF COUNTING NOSES IN STRATHCONA WILL BE FINISHED BY TOMORROW NIGHT—CONTRACT FOR UNIVERSITY RESIDENCES LET.

Strathcona, June 20.—By tomorrow night the citizens of the University city will all be officially enumerated as nearly as possible. After a fortnight's tedious counting the two enumerators in the city limits of the prescribed area will be in the city limits before the present work is closed will have their returns turned in to the department. Mr. D. Dobson completed his counting in the west end yesterday and Mr. M. Caine expects to round up the east end work by tomorrow afternoon. At all the government enumerators are sworn to secrecy it is impossible to ascertain what results have been obtained by the census men in this city and the population figures will therefore be unknown for some weeks yet.

Both Mr. Dobson and Mr. Caine pay high tribute to the manner in which the Strathcona citizens have aided the census in this city. While few places in the Dominion appear to have found the census so easy to conduct as this city, this has been carried out without any serious trouble the enumerators in the city limits before the present work is closed will have their returns turned in to the department. Mr. D. Dobson completed his counting in the west end yesterday and Mr. M. Caine expects to round up the east end work by tomorrow afternoon. At all the government enumerators are sworn to secrecy it is impossible to ascertain what results have been obtained by the census men in this city and the population figures will therefore be unknown for some weeks yet.

AMERICAN WAS WELL SATISFIED

SETTLERS WHO LOCATED ON CLAIM MONTH AGO FIND ALBERTA LAND IS AT

That the Americans who D. H. Moran, provincial public agent brought to Alberta recently are well satisfied with the land they have secured north of Edmonton is evidenced by a letter written to Mr. Moran by a young man named H. E. Dansereau who, after a month's residence in the city, has secured a claim five miles north of Hurlinville, near Moose lake. He has very little to say about the land, but he says it is a fine piece of land, well watered, and he is very well satisfied with the land they have secured north of Edmonton is evidenced by a letter written to Mr. Moran by a young man named H. E. Dansereau who, after a month's residence in the city, has secured a claim five miles north of Hurlinville, near Moose lake. Edmonton Portland Cement

CAPITAL STOCK
\$1,500,000

Co., Limited

LIEUT. GOV. G. H. V. BULYEA
Chairman of the Board

Article Number Nineteen

The Edmonton Portland Cement Company, Limited, is the best industrial Enterprise which has ever been developed in the Northwest. And it is of the greatest value and importance to Edmonton and vicinity. There is a cement famine in the Edmonton district right now. What the conditions will be when the demand in this district increases from 400,000 barrels a year to ten times that amount is not difficult to imagine. UNPRECEDENTED GROWTH OF THE CEMENT INDUSTRY

The growth of the cement industry has no parallel in the industrial history of the world. The following abridged table shows the growth in the production of Portland Cement in America from 1880 to 1910:

Years.	Number of barrels produced.
1880	45,000
1885	150,000
1890	335,500
1895	999,324
1900	8,483,020
1905	35,246,812
1910	74,000,000

The Edmonton district alone consumes more Portland Cement than was produced by all the mills in America twenty years ago. Last year the Edmonton district consumed about one-half of one per cent. of all the Portland Cement produced in America. But this proportion will rapidly increase.

REMARKABLE FUTURE OF THE EDMONTON DISTRICT

The territory to which Edmonton is the gateway reaches to Prince Rupert, eight hundred miles to the West, and to Fort Vermilion, seven hundred miles to the North. It is a domain more than three times as large as the German Empire. And this great country is now rapidly developing. Ten years from now Edmonton should have a population of one hundred thousand, and that would only be equal to the growth of Spokane from 1900 to 1910. This great Empire of the Northwest should have a population of half a million a decade hence, with cities and towns that are not yet even named. And all the vast construction which will mean the making of a new empire, will create a demand for Portland Cement in the Edmonton district which the present market only faintly suggests.

The production of Portland Cement in America will increase from

74,000,000 barrels in 1910 to 150,000,000 in 1920, and the demand in the Edmonton district will increase from 400,000 barrels in 1910 to ten times that amount in 1920. The Edmonton district will be consuming three per cent. of the total Portland Cement production in 1920 instead of one-half of one per cent. as at present, as the geographical proportion and unprecedented development of this great district unite to demonstrate.

PRICE OF PORTLAND CEMENT WILL ALWAYS BE FIXED BY EASTERN MILLS

Only a small part of the Portland Cement used in the Edmonton district can ever be produced here. The bulk of it will always have to come from the East and the United States. The price of Portland Cement in this district will therefore always be fixed by the Eastern mills. And that price will be the Eastern mill price, plus the freight rate to this district—the freight rate based on a haul of 2,500 miles. The Eastern mill price is about \$1.25 per barrel and the freight rates vary from \$1.85 to \$2.10 per barrel. The price of Portland Cement in Edmonton today is \$3.30 per barrel, with no cement on hand.

THE GREAT OPPORTUNITY OF THE EDMONTON PORTLAND CEMENT COMPANY

It is in these remarkable local conditions that the great opportunity of the Edmonton Portland Cement Co. lies. This Company owns materials of the very best quality sufficient for the manufacture of 12,500,000 barrels of Portland Cement. True Portland Cement can be manufactured on the Company's property, as determined by Messrs. R. D. Hassen and T. J. Klossoski at 78 cents per barrel. The Company can sell every barrel of its output at its mill door for at least \$3.05 per barrel based on a haul averaging not more than 400 miles, at a freight rate of 25 cents per barrel. This means a profit of \$2.00 per barrel, or \$640,000 on the year's output—or 40 per cent. on its entire capital stock. These are facts that no business man can deny.

SHARES WILL BE WORTH \$200.

The fact that the Company can, without doubt, pay a dividend of 40 per cent. on its capital stock, should of itself make the shares worth \$200. But the first statement published by the Company will show that its stock has a BOOK VALUE of more than \$200 per share. This statement should be substantially as follows:

ASSETS

Cash for working capital	\$ 170,000
Plant at cost	630,000
Materials purchased sufficient for the manufacture of 12,500,000 barrels at 20 cents per barrel	2,500,000 \$3,300,000

LIABILITIES

Capital Stock	\$1,500,000
Surplus to Shareholders	1,800,000 \$3,300,000

SHARES WILL SOON RISE IN PRICE

There is no reason why the shares of the Edmonton Portland Cement Co., Ltd., should not sell above par today, and they will not sell as low as par for long. Business men and large investors are beginning to see the possibilities of this company; it has already been suggested that a group of wealthy men be formed for the purpose of subscribing all of the shares offered to the public which remain unsold.

There is every reason why an association of wealthy men should undertake to do just this thing. No better investment could be found anywhere. On July 1st approximately six thousand shares will remain unsold. If a group of wealthy men were to take it all, it would mean a 40 per cent. investment or an income of a quarter of a million dollars on an investment of \$600,000. And it would mean more; these same men could advance their shares to \$110 or even \$125, absolutely ON THE MERITS OF THE PROPOSITION, and sell any part of their stock which they wish to sell to the public in sixty days, thus cleaning up an immediate profit of from \$10 to \$20 a share. The shares could easily be sold abroad by such an organization.

Nothing is more certain than that the shares will go above par as soon as work on the construction of the plant is commenced, and the shareholder who obtains shares of the Edmonton Portland Cement Co. at par now will certainly count himself fortunate before a second fortnight has passed by.

Those desiring shares can obtain all necessary information at the Company's Offices, 400-1-2 Moser-Ryder Building. Phone 2171.

"A WINNING MISS"

Boyle Woolfolk's biggest and best musical show, "A Winning Miss," will be seen at Empire Theatre three nights commencing June 22.

"A Winning Miss" claims to be the most pretentious offering of its kind that has ever played here, and has every qualification that a great success should have. The scenery, costumes and electrical effects cost exactly \$10,000, and the production is as good as the first day it opened in Chicago at the Garden Theatre, which is due to its never having been on the road until this spring. The management of the Empire Theatre made a ten-strike when it secured this offering, and will undoubtedly be rewarded by capacity business during its engagement here next week.

The play has a consistent plot and is of the highest class comedy, while the musical numbers, which were written by Boyle Woolfolk and Van Forester, Peters, composer of "Mayor of Tokio,"

are said to equal anything in the musical line of recent years.

The piece de resistance is a dainty number called "Eve," which takes ten and twelve encores each performance. Another beautiful song is "The Land of Tomorrow," sung by Clarence Backus. "Mean Thing," "That Will Look Nice in a Bungalow," "Will O' the Wisp," "May Morn'g," "Keep Smiling," and a dozen others are all hits.

Among the novelties in the show are the double quartet, who sing "The Love Serenade" and play their accompaniments on mandolins and guitars; the "Will O' the Wisp" number with the dazzling fire effect that started at Chicago in talking, and the Yankee Lost finale of the first act, which shows a huge battleship on the stage, with the entire company grouped in same. It requires two bazookas to carry the scenery and effects of "A Winning Miss," and the chorus cannot be excelled for beauty and voices.

IMMIGRATION HALL

Little stories of real life with a great depth of human interest come to light every now and then down at the immigration hall. A good many families are reunited there. There are cases where a father and a brother has been in the country for some time and having secured a good foothold has written for other members of the family to join him. In cases like these the immigration hall is often made a place of meeting.

Yesterday Mr. Gitzel, the proprietor of the hotel at Old Stoney Plain came to the immigration hall and wanted to see the man in charge. When the official appeared Mr. Gitzel explained that someone had advised him by phone that his brother had come to Edmonton and was at the immigration hall.

"There is the boy's name," said Mr. Gitzel pointing to the name "Gottlieb Gitzel, Germany" on the register in the office.

Military Point Cooking Lake

Well, where did you get the name, some of our friends ask.

Well, this is the spot where the Hundred and First Regiment made their camp last year. They had a good time. They selected the place because the land was high and dry, the beach good and the distance from the station short; plenty of good shade trees and a score of other qualifications. So the owner of the property did them the honor to name the subdivision "Military Point."

Lots are selling at Military Point for the very reasons above mentioned.

There will be special train service all summer long. The rate is to be 90c. for the week-end.

The price of lots is

\$150.00 to \$200.00

and the terms are easy.

Don Simons will embark in the grocery business on Jasper Avenue west, Edmonton as soon as his store building is completed. We wish him health and wealth, and firmly believe he will gain the latter, for the simple reason

that he usually knows about where he is at, and that is more than can be said of a majority of the men who are in business in Fort Saskatchewan, who usually bite off something that sticks in their crop. —Fort Saskatchewan Chronicle.

AWARD CONTRACT FOR NEW PUMP

PETITION DEMANDING INVESTIGATION OF POLICE DEPARTMENT LAID ON TABLE

The city commissioners yesterday afternoon awarded the contract for a big water pump to the Ingalls company, acting on the recommendation of Mayor Armstrong and Superintendent Hoffman of the Municipal Power plant. The order will be placed at once. The pump will cost \$7,100, including the work of a traveling engineer. Mayor Armstrong stated that the pump should have been purchased three months ago, and installed for service this summer but as the matter stood now it would be of little use to the city before next spring.

The new pump will have the capacity of 6,000,000 gallons of water in 24 hours and is said to be one of the best in the market, being highly recommended by experts and all who have seen it work.

Pending the settlement of charges in court involving troubles between Officer McNaughton and John Downie, the commissioners postponed action on the petition of George Willis and Robert Davidson, asking for an investigation of the police department, and especially into the character of McNaughton. The petition was read in full and laid on the table.

The petition stated that as citizens and taxpayers of Edmonton, they desired to protest against what they termed the malicious treatment of Mr. Downie, a fellow craftsman and laborer in the business recently when, as they represented, McNaughton, without just provocation, viciously assaulted Downie, after the latter and some friends had been told by the officer in plain clothes to move on.

Would Have Second Cony Island. The commissioners decided to notify Chester McNaughton that his proposition to provide amusements at the city park would not be entertained.

A communication was read from Walter S. Campbell offering to establish a second Cony Island on the exhibition grounds. Referred to Commissioners Candy and Aear.

A representative of the animal show appeared before the commissioners and protested that the city license of \$300 a day for shows of that character was prohibitive so far as his people were concerned. He wanted to put on the show in Edmonton, July 3 and 4 and inquire if the license could not be reduced, as the license show could not afford to pay as much as a large circus. Commissioner Bouillon suggested that the request be referred to the city council with a recommendation that the bylaw governing such matters be amended so that shows and circuses may be classified as to size and earning capacity. The license man said he might call on the council tonight.

City Not Collection Agency. A letter was laid before the commissioners requesting that the wages of a certain employee be turned over to a company that had advanced the employee money some time ago.

"We can't turn this city into an agency for the collection of private accounts," observed the mayor in commenting on the unusual request.

The letter was thereupon ordered returned to the person who sent it to the commissioners.

The commissioners received tenders for the city's debentures amounting to \$750,000. They included tenders from Mr. Butchart and Secretary-Treasurer Crosskill for tabulation and report. The following financial institutions submitted tenders:—The Dominion Bond Co., Ltd.; C. H. Burgess & Co., on behalf of C. P. Spencer, of London, England; The Royal Securities Corporation, Ltd., of Montreal; Silson & Co., of Toronto; Wood Gundy & Co., Ltd., The Imperial Bank of Canada; The Dominion Securities Corporation; The Ontario Securities Co.; Angelus Jarvis & Co., Toronto; Conley, Son & Co., of London, England; The Merchants Bank of Canada, and The Canadian Agencies, Ltd.

On motion of Commissioner Bouillon orders will be placed for stokers to be used in connection with machinery at the power plant with the Westinghouse company, Green Engineering company and the Babcock-Wilcox company.

CORONATION SALUTE Will Be Fired From Old Cannon Used Years Ago By Hudson's Bay Company

The coronation day celebration committee is making arrangements whereby a salute of guns will be fired in Edmonton at 8:26 o'clock on the morning of June 22, the exact time upon which the crown will be placed upon King George's head in Westminster Abbey. In Great Britain the time corresponds to 2 o'clock in the afternoon.

Two old pieces of artillery which are at present stored in the old Hudson Bay Co.'s fort at the foot of Seventh street, will be fired by way of salute. A number of old artillerymen resident in the city will be secured.

PROTECT ROYALTY FROM ANARCHY Scotland Yard Taking Precautions for Coronation Day

London, June 20.—Invitation cards are now being issued for the coronation ceremony in Westminster Abbey, where two additional rehearsals will be held this week. The Indian troops are now located at Hampton Court, and, together with the Canadian contingent, are being made welcome at various attractions and entertainments.

Scotland Yard is taking strict precautions to guard against any attempts by anarchists, as on the occasion of the coronation processions. All those having control of the seats on the lines of the route have been required to sign the names and addresses of all foreigners booking seats or windows, to enable inquiries to be made, should any unruly street watch is being kept

Rocky Rapids Scheme May Furnish Solution

The vote on the Grand Rapids power bylaw is pretty conclusive evidence that very few took this proposition seriously.
A power site 190 miles away which would cost four or five millions to develop, is not what Edmonton wants, and even the formality of voting a bylaw to hold it for a year did not appeal to the ratepayers.

This having been disposed of, let the council now make a common-sense investigation of the Rocky Rapids site on the Saskatchewan to discover if it is feasible to develop power at that point, and if so, how much it will cost to acquire it and what a 20,000 horse power hydro-electric plant will cost.

Edmonton cannot forever depend on steam power, and failing the discovery of gas the Rocky Rapids may furnish the solution. The time to look into the question is now.

Investigation Will Show If Policeman Was Roudy

The case of Messrs. Wyllie and Davidson, the two stonecutters who claim that they were wantonly and grievously assaulted by a plain clothesman, is one which merits investigation.

While it is not justice to consider the officer guilty of rufianism until the case against him has been established, it is a fact that there have been some things perpetrated under Chief Enser's rule which are to say the very least disgraceful, the most glaring of which was the case of assault by the chief himself on Alex. R. Groff, a peaceful and law-abiding citizen as the city can boast, and for which the chief was found guilty and fined in the police court in which the chief himself is usually the prosecuting officer.

An investigation of the McNaughton case, if the officer is innocent, cannot harm him. If he is guilty, common justice demands that the officer be punished as a common roudy and that such amends be made to the victims of his rufianism as the city can make under the circumstances.

Edmonton a Metropolis And Developing Centre

Another new passenger service went into force yesterday when the Grand Trunk Pacific started its first train on the Toileld branch. Time was, and not so long ago, when the inauguration of a train service in Edmonton was a matter of great joy and wide celebration. How many remember the day when the first C.N.R. train entered the city?

And yet, the country made tributary to Edmonton by this new service which was inaugurated so unostentatiously yesterday probably contains more people and grows more grain than the country brought tributary to Edmonton did at the time the C.N.R. commenced operating.

The circumstance is intensely illuminative in the respect that it shows the comparative growth of the city. The addition of a new train service now-a-days is not an epoch marker. It is merely an other feeder. Edmonton has become a metropolis and distributing centre.

Canadian Development Greatest in all History

With the season well advanced and with the conditions the most favorable known in years, if not in the history of the country, the 1911 crop is now almost absolutely assured. Practically speaking, there is now no possibility of any failure in any section in the whole northwest. The acreage is by an enormous wide the largest ever known, the weather during seed time was propitious and the growing season has been in every respect ideal. The crop is now further advanced than at this time in any year in the recorded years since crop growing began west of the lakes. One report places the total damage so far sustained on all counts in all parts of the country at not more than one-half of one per cent. The total crop, according to the best available estimates, will be 200,000,000 bushels of wheat alone, and the oats, barley, flax and other crops will be at least double those of last year.

It is difficult to appreciate what this all means. A country which twenty-five years ago was practically uninhabited and whose grain crop was a negligible quantity in the world's estimate is in one year doubling its production. All the wonderful progress and remarkable growth of the last decade, a growth which has made western Canada the synonym of enterprise and prosperity throughout the world, is to be duplicated in one short year. Where there was one dollar in circulation last year there will be two this.

The impetus or trade that will follow this year's crop will be the greatest the commercial world has ever seen. The inducement to settlers will be greater than ever and the lure of Western Canada will be well nigh irresistible to those agriculturalists in other parts of the world who find conditions in their present surroundings not to their greatest advantage.

Western Canada is making a new town every day, not in the old and slow-going way in which towns have been developed in the past, but creating them complete from the bald prairie with all modern improvements, ready for the business which awaits them. Next year Western Canada will produce two towns a day and next year the grain in crop production will undoubtedly be as great as this.

Western Canada is experiencing an era of growth and development which is the greatest that history has ever recorded or the human race has ever known, and it is all due to the fertility of the soil and the industry of the people.

JUST PARAGRAPHS.

Max Aitken, the cement merger man, was knighted.

Five thousand people attended the band concert in Calgary on Sunday and nobody said a word.

Baseball is really not much of a game after all. And anyway, what could you expect but an uncouth interpretation of any science in Calgary.

PIONEER GOES ON LONG TRAIL

FUNERAL OF LATE JAMES KIRKNESS TO BE HELD TOMORROW FROM FAMILY RESIDENCE

The funeral of James Kirkness, who died on Sunday at his residence on his old homestead in the east end of the city, will be held tomorrow at 2 p.m. The funeral services will be conducted at the house by Rev. J. E. Huchison of Melbourne Methodist church. No service will be held in the church. The remains will be interred at the Edmonton cemetery.

With the death of Mr. Kirkness, one of the real old timers of Edmonton passes off the stage. It is safe to say that few of the men who came to this section of the country in the early days have a better knowledge of the country from actual experience than had this pioneer.

Mr. Kirkness came to Canada from Scotland in the year 1866, to go into the employ of the Hudson's Bay company at Norway house.

After spending five years with the company at that post he came to Edmonton in 1871 and went directly to the Hudson's Bay post at Rocky Mountain house where he remained for a period of seven years. He was afterwards transferred to Edmonton from Norway house by Dr. McKay, who now resides at the corner of Fifth street and McKay avenue.

After spending two years at Rocky Mountain house, which was at that time one of the remote points of the company, Mr. Kirkness returned to the post at Edmonton and remained here for two years. He was married in 1875 to Sarah Stoddart and shortly after word transferred to the Hudson's Bay post at Lac St. Anne. He spent five years at this post, and went directly to the employ of the company and returned to Edmonton.

In 1882 he homesteaded river lot 22, part of which is now the city park and the exhibition grounds. In 1889 he again entered the employ of the Hudson's Bay company and shortly after Peace River to take charge of a ranch, which was being stocked by a large number of polled Angus cattle. At that time Henry Sefton was in the north country and is still living there. Mr. Kirkness returned to Edmonton in 1891 and since that time has been living at his home in the east end of the city.

He leaves to mourn his loss his wife and three children, Henry in Grande Prairie and Charles and Edith who reside at home.

COMPLETE CENSUS IN THE UNIVERSITY CITY
Continued From Page One.

other members of the faculty at the institution. The contract for the construction of these new buildings was signed yesterday afternoon by Mr. A. McSparran of Edmonton and a start upon erection will probably be made tomorrow. Plans for the buildings were prepared last year but circumstances prevented their being carried out during the season and consequently the boards of the University took steps early this year to get the work under way and it is required that the residences be ready for occupancy during next September.

The contract price for the four new residences is understood to be in the vicinity of \$250,000. More than one-third of this amount will be paid into the dwelling intended for President Torrey, which is to be one of the best residences in the city.

The three other residences to be erected this summer are for professors W. A. H. Kerr, W. M. Edwards and A. Lehmann. The buildings for Dr. Torrey and Dr. Kerr will be completed entirely of brick while the other two will be of combined brick and frame. It is understood that residences for the use of other members of the university faculty will be built next year. Two professors, Dr. Brookes and Dr. Alexander, had their own homes built last year on sites southwest of the university grounds. The new residences will be located on the west side of the university grounds fronting on Saskatchewan avenue. The site being a particularly commanding one from a scenic view point.

Messrs. Wilson and Merrill of this city are the architects for the new buildings and their plans provide for thoroughly modern dwellings of comfortable interior and pleasant exterior design. The contract for their erection will be the second large undertaking secured by Mr. McSparran in this city, he having built the new O.M.I. college in the east end last year.

New East End Store.
As evidence of the growth that is being made in the district east of Mill creek, the construction of a new store building has been begun on Whyte avenue two blocks east of the high level bridge. Mr. H. W. Wilson of 1415 Third Ave. N.E. is having the store erected and contractors Gordon and Oliver have already broken ground for it.

Mr. Wilson, some months ago purchased a block of land on Whyte avenue and Eleventh street east, and has been busy erecting a new building on a part of this property that the new city government has extended very far west and the need of a new store building in this vicinity has been long felt.

One of the features of the new building is its location in the city Saturday afternoon, June 17, for inspection and approval by local conditions very satisfactory. The party included B. S. Jenkins, Gen. Sup't., Wilson, and W. McMillan, superintendent, Calgary. The officials left for the south Saturday afternoon.

At the home of Mrs. Wm. McLean in Vancouver tomorrow will take place the marriage of two of Strathcona's well known young people, Miss Lena Armstrong and Mr. G. B. Brock. After the ceremony the young couple will leave for a short trip to Victoria, Seattle and other coast cities planning to return to

YE GUS! WHAT WENT WRONG HORRORS

CALGARY SLASHED A HORRIBLE DEFEAT OUT TO THE ESKIMOS IN THE OPENING GAME. PICH WAS SWATTED SOME IN SEVENTH. SCORE 16 TO 4.

Calgary, June 20.—In a game that was a real test of the Eskimos' new lineup, the heavy hitting on the Bronchos part that has been seen here, the Eskimos were properly trimmed by the score of 16 to 4. No; it is not a printer's error. It is solid cold fact. If Mr. Pich, who was sent into the box at the end of the first inning, lives to be an old man, he will not forget that game, especially the sixth in the "Lucky" seventh. In that inning they ate the ball alive and smashed out six hits without a skip, three of these walks were over the fence hits for home runs. It was a shabby affair to the man with the hot oven name. Leaving out the question of the first inning when Moran, Wilson and Chick walked, the seventh was enough to send a ball manager to an early grave. Just six runs came in on the seventh. It was thusly: Moran hit a nice single and O'Brien followed suit. Pich backed up on Puc Wilson, the big hitter of the team and Tugsey went to the corner score with a pass. Mr. Chick leaped on an out force for a clean home and came across the plate with his head up like an angry old bull before the ball was back. Mr. Flanagan took the next ball on the nose and it fell within a foot of where the previous one had fallen. Lusk was all but in and one could hear him puff from the bleachers when bing! Strich, the new man taking first baseman Moran's place, caught the ball plunk on the seam for another homer. Pich almost dropped dead, and the crowd, wild, were pulling yet. Steve Standridge, with his Detroit team in his pocket, had the lump turned up to the fullest power and never did he pitch better. He only whiffed four, but that is nothing, as they all pounded the ball to him or dugger or short. They always do not a pun was slipped. Brennan had a rotten day, and tittered the balls that came his way or missed the throw. To put a touch on the matter, he split his finger and Deacon White had to go in. So far as the local team is concerned, they were here with the bells on and the boys were on their toes for 16 days. O'Brien was the hero of the infield in spite of an error. He grabbed a dozen lovely ones hot off the griddle. Moose Traxler lost \$2.00 on the game to Charlie Bell, and others, and thought he was a winner when the first man up hit the ball for a nice single. In fact, Mills for the enemy, played a good game and the first ball of the game he landed on fair for a hand-

PERAMBULATIONS BY "SQUILLS"

DIAMOND DITTIES

The W.C.L. Manager

They gave me an empty hat box and title to twenty-six Rubles. And they said, "Make us a ball team out of these likely recruits."

Farmhands and loafers and quitters, and all of them baseball bums. Why, you couldn't disguise 'em as players if you put them in New York suits.

They hired me three weeks from the season to handle a tail-end club. And they said to me, "Give us a ball team, and do it as quick as you can."

Then they screamed when I fired a veteran and howled when I traded a club.

Or the papers said I was crazy when I paid for a first-class man. Then the owners they met and they fired me and picked up a cheapie man!

"Let's go to Calgary, Jeff, and see the ball games. I've given this ambulance all I'm going to and I'm going to watch somebody else look after the people who die on third after this."

"Sure, yuh wise mutt, but how'll we get the C. P. R. ain't noted for their generosity."

"Huh, think a couple of wise ducks from New York can't beat the C. P. R. Wait, I'll show yuh."

"Show mih, dearie."

"Come on down to the C. P. R. ticket office on Jasper."

"Mutt and Jeff go down and accept the agent."

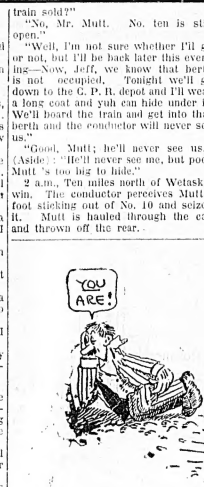

"Are all the berths for tonight's train sold?"

"No, Mr. Mutt. No, ten is still open."

"Well, I'm not sure whether I'll go or not, but I'll be back later this evening—Now, Jeff, we know that berth is not occupied. Tonight we'll go down to the C. P. R. depot and I'll wear a long coat and yuh can hide under it. We'll board the train and get into that berth and the conductor will never see us."

"Good, Mutt, he'll never see us." (Aside: "He'll never see me, but pour Mutt's too big to hide.")

"2 a.m., Ten miles north of Wetaskinaw. The conductor perceives Mutt's foot sticking out of No. 10 and seizes it. Mutt is hauled through the car and thrown off the rear."

Question: Where is Jeff?

The devil was the first catcher, he caught Jeff; when she stole first, Adam second. When like me Rebecca, she was walking with the pitcher.

Sanson struck out a great many when he beat the Philistines. Moses made his first name when he saw the Egyptians. Gain made a base hit when he saw Abel. Abraham made a sacrifice—Now, Jeff, we know that berth is not occupied. Tonight we'll go down to the C. P. R. depot and I'll wear a long coat and yuh can hide under it. We'll board the train and get into that berth and the conductor will never see us."

"Good, Mutt, he'll never see us." (Aside: "He'll never see me, but pour Mutt's too big to hide.")

"2 a.m., Ten miles north of Wetaskinaw. The conductor perceives Mutt's foot sticking out of No. 10 and seizes it. Mutt is hauled through the car and thrown off the rear."

"Good, Mutt, he'll never see us." (Aside: "He'll never see me, but pour Mutt's too big to hide.")

"2 a.m., Ten miles north of Wetaskinaw. The conductor perceives Mutt's foot sticking out of No. 10 and seizes it. Mutt is hauled through the car and thrown off the rear."

"Good, Mutt, he'll never see us." (Aside: "He'll never see me, but pour Mutt's too big to hide.")

"B"; Caledonians; Norwood "A"; Norwood "B".

Wetaskwin Won From Red Deer Team

Wetaskwin, June 20. (Special to the Capital).—Fred Deane met his first defeat at the hands of Wetaskwin last Friday when in a schedule league game Wetaskwin out it to the Red by a score of 7-4. The game was fast and snappy and full of exciting ball hitting one of the best yet seen in the Central Alberta league. Bill Donnelly unpaired satisfactorily, no decision being questioned.

Red Deer—Turner, G.; Huettis, S.; Rohr, S.; Washburn, P.; McLaughlin, W.; Fraser, B.; Hanley, I.; Smith, G.; Honnick, I. Wetaskwin—Murray, S.; Barrett, S.; Davidson, P.; Johnson, I.; Lynch, B.; Greene, C.; Loudon, G.; Underwood, R.; Hubbs, I. Score by innings: Red Deer 010 000 600—1 Wetaskwin 110 021 113—7

ENGLISH CRICKET

ROBINS DEFEAT THE ANGELS. SCORE BIG

MANAGER CUSTER NOW LOOKING AFTER THE ANGELS HEALTH—SCORE WAS TEN TO FOUR

Moose Jaw, Sask., June 20.—The Robins did not have any trouble defeating the Brandon Angels yesterday, the final score being 10 to 4. Manager Custer is now in charge of the visitors and worked behind the bat for a portion of yesterday's game. Some of the highlights: Robins' first base hits, Cox; two-base hit, Standridge; sacrifice hits, Mackin, Flanagan, Strich; 2 stolen bases, Flanagan, Moran, Strich; first base on balls, C of Skilman 1, off Pich 5, off O'Brien 2; left on bases, Flanagan 2, O'Brien 2, Brennan, Strich; double plays, Strich to O'Brien, Pich to Strich; passed balls, Strich 2, Sorrenson 2; wild pitches, Pich 3; Time 2:10. Umpire, Letcher. Attendance, 1,800.

TWO GOATS GONE

Matilda is a charming maid—A girl on whom I do not depend. But when I speak to her of love She says: "That meets my goal."

Now Hilda is another Miss; Sometimes I quite adore her; But when I tell her so, she says: "That captures my angora."

The sentiment contained in the above verselet, "M.S." is very beautiful indeed.

I also admire the manner in which you have introduced natural history into your effort. It is not every bard who can effectively work a couple of goats into a verse of eight lines.

I have only one criticism—I don't like the way the last verse of the last line rhymes with the last two words in the sixth line. It jars considerably on my poetic sentiment.

Instead of "angora" why didn't you spell it "angora" and charge the change up to poetic license?

TENNIS

The draws for the tennis club tournament which starts this week are as follows:—Nelson vs. Boulton; Gent vs. Smiles; Dickens vs. Carthew; Bowman vs. Kinner; Burnham vs. Robinson.

Ladies' Hand Singles

Miss M. Ross vs. Miss P. Davies; Miss P. Ross vs. Miss P. Davies.

Gentlemen's Hand Singles

Kinner vs. Boulton; McDonald vs. Hogg; Burnham vs. Finn; Jones vs. Carthew; Dickens vs. Nasmith; Robinson vs. Harvey; Nash vs. Goulding; Rogers vs. Proffman.

Draw for the Five A-Side Soccer Games

The five-a-side football tournament for the coronation sports has a big entry list. Seven games will have to be played before the championship is decided. The draw is as follows:

1. Gullies vs. Norwood A. 2. S.O.E. B. vs. Strathcona Y.M.C. 3. Swifts A. vs. S.O.E. A. 4. Swifts B. vs. Norwood B. 5. Winners of 1 vs. winners of 2. 6. Winners of 3 vs. winners of 4. 7. Finals. Winners of 5 vs. winners of 6.

WITH THE BOXERS

Bill Papke has agreed to another meeting with Jim Sullivan, the English champion.

A pavilion that will seat 30,000 people is being erected in Tulsa, Okla. for the Carl Morris—Jim Flynn bout, July 4.

Don't leave! Just a minute, gentlemen! Thomas Sharkey, a curly wolf of the old school, announces that he is ready to fight again, and challenges Jack Johnson to fuse for the championship of the world.

SOCCER GAME WAS CALLED LAST NIGHT

After advertising the game right up to the last moment the football league called the game which was to have been played at Diamond park off with-

out giving the fans any notice that there would be no game. The league did not even take the trouble to post a notice at the top of the hill telling people that there would be no game.

The league when it discovered that it was impossible to play the game might have done something to inform people of the fact and save them the walk down the hill and up again.

In a recent game with Brooklyn the Pittsburgh Pirates made three double steals.

Manager Jack Dunn's Baltimore team is coming strong in the Eastern league race.

The Chicago Cubs have refused to waive on Lefty Russell, Connie Mack's \$11,000 beauty.

You, Mister Man!

Dress for this warm weather. That's how to enjoy it.

A SOFT OUTING SHIRT NIFTY FLYING TROUSERS A SMART BELT

The outfit costs you \$4.45 to \$5.25. Ample ability to richly supply survey and settler outfits.

The Hudson's Bay Co.

Jasper at Third

REAL ESTATE BULLETIN

The demand for Jasper avenue and First street property is being well maintained and there is also enquiry for the East End avenues.

In residential lots Norwood is being much enquired for in the East End, with Glenora and Inglewood in the West.

In houses the demand is still for the West End, between Fifth and Twenty-fifth streets.

Acres and small lots of farm lands are also in request.

Alberta Park

We are kept busy showing this property daily to appreciative clients.

We know that you also would appreciate it did you but see it. Permit us therefore to show it to you at your own convenience.

Our phone is 1850, and we are at your service.

Today's Offerings Business Properties

A lot on Central Jasper Ave., north side, \$90,000
We have a splendid proposition in connection with above lot. See us about it.
50 feet on First St., north of tracks, per foot, \$375

NEWS OF THE CITY

The ladies aid of Grace Methodist church purpose holding a lawn social on July 14th at Mrs. Chapman's, corner Jasper and Kinsella.

The contract for the basement and concrete foundation of the new Massey Harris building on Howard avenue has been awarded to Nesbitt and Miller. E. Winkler, architect will supervise the work of construction.

Two sisters from the Catholic hospital at Missoula, Montana, were visitors at the McCreed hospital yesterday. They left last night for North Battleford where a new hospital is to be opened.

The Alberta Electric company is supposed to have purchased a right of way through the heart of McLeod recently and the townpeople are looking for developments. Big prices were paid for the land but it is not definitely known who are behind the deal.

W. L. Hall who has been committed for trial on two serious charges and against whom there are still ten charges pending will be tried this afternoon on two charges of theft. The thefts are alleged to have been from the Grand Trunk warehouse near Edison.

The police are having difficulty in connection with the case of Caird Forrest on a charge of keeping a bawdy house. The case has been adjourned five times already in order to allow the police to secure further evidence. The case came up for hearing before Magistrate Gowen this morning was adjourned for a week, the police not having their case ready for trial.

Charged with having disposed of a writ of his stock with intent to defraud creditors, E. Bourque, former proprietor of the Hub Cigar store was arraigned in the district court before Justice Taylor this morning. The case for the prosecution was not completed at noon, and the whole of the day will probably be taken up by the hearing of evidence.

After a delay of almost a month the police department has secured a stenographer for the police court. Mr. Walker H. Walsh, late of the Winnipeg Police court stenographer, Mr. Walsh assumed his duties on Friday, June 17, during the weeks in which the court had no shorthand writer the magistrate himself had to take every word of evidence in long hand.

A comprehensive little booklet descriptive of the town of Stettler and the surrounding district has been issued by the board of trade of the town. A number of copies have been sent to the Edmonton office of the Central Alberta Development league for distribution here.

The case of a young Wetaskiwin who was charged by License Inspector Hodgkins with having obtained liquor while interdicted was heard this morning in part. The case was adjourned until this afternoon in order to allow the provincial license inspector to secure evidence as to the validity of the interdiction.

Edmonton and Strathcona school teachers to the number of 100 will take an excursion trip down the Saskatchewan river this evening. The trip has been arranged by the Edmonton teachers club.

During the greater part of the present week the government buildings will be in charge of the deputy minister, Hon. C. B. Mitchell, acting premier, is now in his constituency in the south of the province, and will not return in all probability until early next week. Hon. Duncan Marshall, minister of agriculture and Hon. Arch. McLean, provincial secretary, are in the east.

SUPREME COURT

June sittings of the supreme court were opened this morning, Mr. Justice Simons on the bench. The cases were set down for hearing and the court adjourned until 2 o'clock. The following cases will come up for trial in the order given on the list:

Old Cases

Blodgett vs. Preitz.
Blodgett vs. Occidental Pile.
Gallins vs. Eaton.
McLaren vs. St. Denis.
Johnson vs. Johnson.

WANTS COMPANY TO PUT UP BOND

UTILITIES COMMISSIONER ASKS FIRE ALARM CO. TO SAFEGUARD CITY AGAINST FALSE ALARMS

Representatives of the May-Oatway fire alarm system, local business men and Utilities Commissioner Boulton were in conference for an hour or more at Mayor Armstrong's office this morning trying to reach an agreement on the question of insulating the system in Edmonton business houses.

Besides the mayor there were also present representatives of fire insurance companies, who urged that the alarm system when installed would have the effect of reducing fire insurance rates in the city. Commissioner Boulton still held out for conditions imposed in the original proposition from the city. He wanted the May-Oatway people to put up a \$5,000 cash bond to indemnify the city in the event of damage arising from false alarms, etc., but this they declined to do for the privilege of doing business here.

No definite decision came out of the conference and it is not known what steps may be taken to overcome objections of the May-Oatway firm to the bond proposition.

ALBERTA COLLEGE EXHIBIT

Work and methods of Alberta college will be demonstrated in the industrial building at the fall fair, upon a stand of 13 feet frontage for which application was made at the exhibition offices this morning. Two stenographers will be on the grounds throughout the days of the fair, and will carry out free of charge any stenographic work which may be required during the week.

The final rehearsal of the chorus and orchestra which are to furnish the body of the programme of the free concert in the Thistle rink on Thursday evening was held last evening at the old Methodist church on First street, at 8 o'clock. It is the ambition of the musical committee to have a chorus of 100 voices on the platform when the Lieutenant-Governor enters the auditorium, and the patriotic programme begins.

EMPLOYMENT BUREAU. WANTED quick, 100 men for C. P. R. work—steady positions at all times for railroad work. Largest list and suppliers of men for railroad and mines in the west. Satisfaction guaranteed. O. Hansen and Co., 622 First street. Phone 2514.
